High School Voter Education Weeks

Voter Registration Drive Starter Kit *September 2025*

Is your school ready to host your own voter registration drive? Now is the time! The weeks of September 15 and September 22 are High School Voter Education Weeks, where the San Bernardino County Registrar of Voters and other organizations equip our nation's high school students with the information they need to become civically involved in the communities where they live, work and play.

The San Bernardino County Registrar of Voters encourages your school to host a voter registration drive during High School Voter Education Weeks to help educate your 16- to 18-year-old students about how they can register to vote, and who is eligible to do it.

The purpose of this starter kit is to assist your school in hosting your own voter registration drive. Please find resources available to you on the following pages.

Proudly place the web banner and web buttons on the home page of your school's website to encourage student participation at the voter registration drive. These are generic so that they can be accompanied by other promotional methods (social media, flyers, etc.) that share the event's date, time and location. We recommend publishing this live on your website for the two-week High School Voter Education Weeks period from September 15-26, 2025.
