Storing 8000- and 9000-Series Ballot Boxes in Ballot Storage

Scope

This procedure is used in the Ballot Storage Department and is not applicable in any other departments. It has been designed to determine box series numbers and shelve boxes in its proper location. All of ballot storage will be assigned to allocate boxes to its designated spot.

Purpose

The purpose for this procedure is to determine the location of boxes that contain duplicated ballots. This procedure will ensure easy identification and efficient inventory. Each ballot box is labeled correctly.

- 8000 series are the Original Ballots
- 9000 series are Duplicates

The 8000 series come from the Ballot extraction area, and the 9000 series come from the IT Counting Room.

Supplies Needed

- computer
- storing shelves

Process

1. Place the 8000 series boxes on the left shelves
2. Place the 9000 series on the right shelves
3. Place the boxes sideways with the label forward and upright position.
4. Place 5 boxes per shelf.
5. Place boxes from left to right.

4. Leave an empty spot for the next available box if needed.
