

SIGNATURE VERIFICATION TRAINING

**General Election
November 5, 2024**

Objectives of Signature Verification Training

- To explain and understand the Signature Verification process
- To ensure a uniformed standard for Signature Verification of mail ballots
- To produce consistent results in accordance with applicable laws, regulations, and best practices

General Election, November 5, 2024

- Over 1.1 million registered voters
- 300 Polling Places
- Approximately 3,000 Poll Workers
- Federal, State and Local Contests
- State Propositions
- Local Measures

How Will People Vote?

- Mail in their Ballots
- Vote Early at the Registrar of Voters office or the Early Vote Sites
- Place their Mail Ballots in Drop Boxes and Drop-Off Locations throughout the County
- On Election Day at any polling place in the County

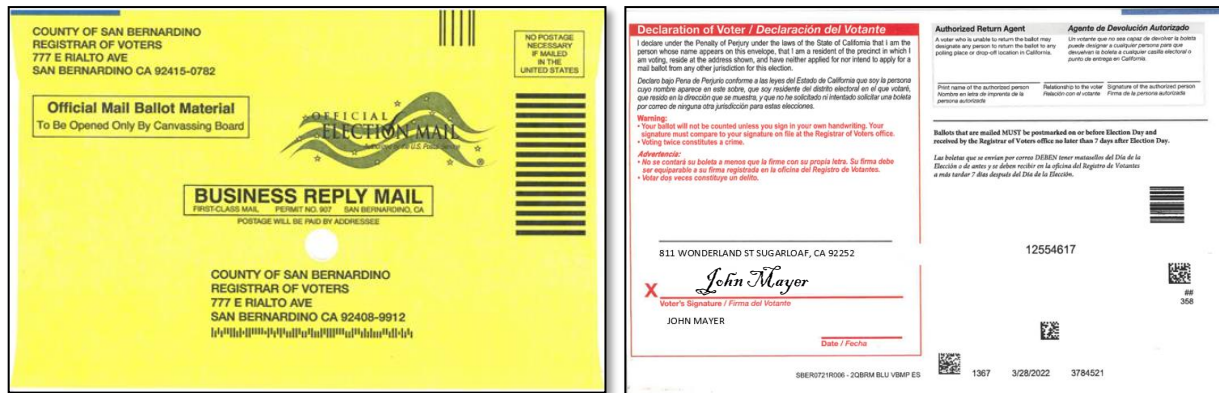

Election Day, November 5, 2024

- **What will voters vote on?**
 - Paper Ballots
 - Ballot Marking Devices to meet Help America Vote Act requirements
- **How will ballots be counted?**
 - On high-speed scanners at the Registrar of Voters Office

Definitions and Terms

- **Mail Ballot Voter:** A voter who receives and submits their ballot via mail rather than voting at a polling place on Election Day.
- **Signature Verification:** The process of comparing signatures from the returned Official Mail Ballot Return Envelope to the signature on file in the Registrar of Voters voter registration system.
- **Official Mail Ballot Return Envelopes:** Envelopes used for the return of mail ballots. They contain voter identification information and the voter's signature.

Mail Ballot Returns Statistics

Presidential Primary Election March 3, 2020	Voter Count
Total Registered Voters	1,020,924
Total Mail Ballots Issued	680,941
Mail Ballots Returned	265,530
Percent of Mail Ballots Returned	38.99%

Presidential General Election November 3, 2020	Voter Count
Total Registered Voters	1,092,843
Total Mail Ballots Issued	1,007,620
Mail Ballots Returned	711,037
Percent of Mail Ballots Returned	70.57%

Mail Ballot Returns Statistics

Statewide Direct Primary Election June 7, 2022	Voter Count
Total Registered Voters	1,149,364
Total Mail Ballots Issued	1,139,045
Mail Ballots Returned	235,085
Percent of Mail Ballots Returned	20.64%

General Election November 8, 2022	Voter Count
Total Registered Voters	1,138,702
Total Mail Ballots Issued	1,107,998
Mail Ballots Returned	398,975
Percent of Mail Ballots Returned	36.01%

Vote by Mail Ballots

- All registered voters will receive a Mail Ballot.
- Ballots will start being mailed to voters on E-29.
- We will receive voted Mail Ballots between E-29 to E+7.
- The projected returns is 324,687 Mail Ballots.
- We will begin processing returned Mail Ballots on E-29.
 - Signature Verification can begin
 - No Voter Signature Letters and Unsigned Identification Envelope Statements are sent to voters that did not sign their return envelope.
 - Non-Matching Signature Letters and Signature Verification Statements are sent to voters whose signatures did not compare to the signatures on file.

Voter Signature

- California law requires each voter to sign their Official Mail Ballot Return Envelope with their own handwriting.
- Registrar of Voters office must then compare that signature to the voter's signature on file.

Signature Verification

- **Signature Verification** at the Registrar of Voters office is performed by using two similar, but separate, processes:
 - Side-by-side Scanned Image Verification
 - Physical Envelope/Scanned Image Verification
- Both processes are performed in conjunction with the election management system known as DIMS.net

The screenshot displays the login page for the DIMS.net Election Management System. At the top left is the Runbeck Election Services logo. The title 'DIMS.net Election Management System' is centered at the top, with the version 'v 2020.08.14.25123' below it. The main login area has a blue background and contains the following fields and buttons:

- Login Using:** A dropdown menu currently showing 'My Windows Account'.
- User Name:** A text input field containing 'Alexandria.Gomez'.
- Password:** A text input field.
- Login:** A button to submit the login information.
- Login To:** A dropdown menu at the bottom left showing 'Prod EMS'.
- Close:** A button at the bottom right.

Methods of Signature Verification

Side-by-Side Scanned Image Verification

- This screen in DIMS.net is also called batch mode. It displays the Official Mail Ballot Return Envelope signature and signature on file for the voter.

The image displays three side-by-side screenshots of the DIMS.net 'View AV Sigs' interface, showing the signature verification process for three voters. Each panel includes a header with the voter's name, address, and a 'Find Voter' button. Below this, there is a dropdown menu for 'IN REVIEW' and checkboxes for 'Update Sig?' and 'Active Ballots'. The main area shows the scanned signature and the signature on file, with a comparison mark 'X' indicating the match. At the bottom, there is a 'Skip Verified Signatures?' checkbox and navigation buttons for 'First Page', 'Prev Page', and 'Next Page'.

Voter ID	Voter Name	Address	Signature Match
10040 - 165 (Voter ID = 61875) (AV ID = 65104737)	ISABELLE RHEA THOMAS	123 BLACKBERRY AVE SAN BERNARDINO CA 12345	Match (X)
10040 - 166 (Voter ID = 612385) (AV ID = 73341125)	TAYLOR ELIAS PRICE	459 STRAWBERRY LN SAN BERNARDINO CA 12345	Match (X)
10040 - 167 (Voter ID 623496) (AV ID = 62411365)	ANDREW JAK HALL	18082 BLUEBERRY DR SAN BERNARDINO CA 12345	Match (X)

- When comparing signatures, note that the top signature is what we have on file.
- The bottom signature is on the returned envelope that we have scanned.
- Always compare the bottom (envelope) to the top (on file) signature.
- If the bottom signature compares to the top, it is then a valid signature.
- To view more signatures on file, double click on the top signature.
- DO NOT click on the bottom signature. You will get a signature that does not belong to the voter.

The screenshot shows a software window titled "View AV Sigs". At the top, it displays voter information: "10040 - 165 (Voter ID = 61875) (AV ID = 65104737)", "ISABELLE RHEA THOMAS", "123 COUNTY LN", and "SAN BERNARDINO CA 12345". There are buttons for "Find Voter" and "Active Ballots". Below this is a dropdown menu set to "IN REVIEW" and a checkbox for "Update Sig?". The main area displays two signatures. The top signature is "Isabelle Thomas" with a red arrow pointing to it from a label "ON FILE". The bottom signature is also "Isabelle Thomas" but is preceded by a large "X" and has a red arrow pointing to it from a label "ENVELOPE". Below the signatures, there is a checkbox for "Skip Verified Signatures?" and three buttons: "First Page", "Prev Page", and "Next Page".

Signature Verification Process

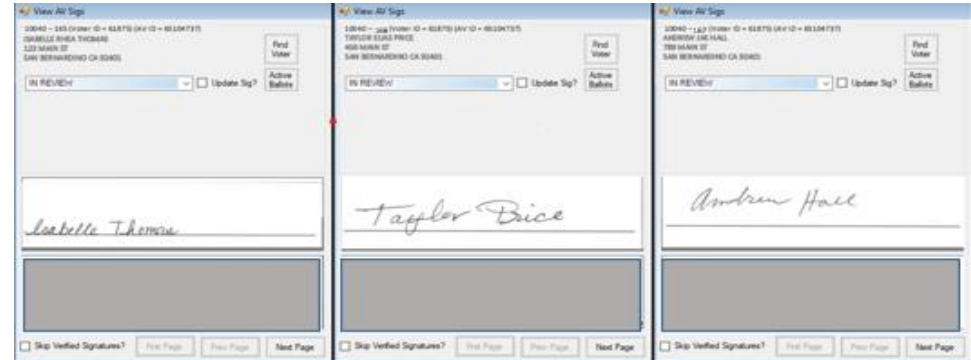

Physical Envelope/Scanned Image Verification:

- This verification process is utilized for elections with low return quantities.
- Signatures on the physical *Official Mail Ballot Return Envelopes* are compared against the signature on file.

Physical Envelope/Scanned Image Verification:

- The Signature Verification screen displays the signatures on file that are then compared with the signatures on the physical envelopes.

Signature Verification Process

According to the California Elections Code:

- The signature verification process “shall be liberally construed in favor of the vote-by-mail voter” (EC3000).
- Presume that the signature on the ballot envelope is the voter’s signature.
- When comparing signatures, do not review or consider a voter’s party preference, race, or ethnicity (EC3019).

Principles of Handwriting

Three Main Principles of Comparing Handwriting

- No two skilled writers will have identical handwriting features.
- Every person has a range of natural variation.
- No writer can exceed his, her, or their skill level.

Signature Variations

- Two similar characteristics between a signature being compared and any signature in the voter's registration record are sufficient to determine a signature is valid.
- The voter's registration record contains the signatures from:
 - their voter registration affidavit, DMV, and any forms issued by an elections official that contains the voter's signature.
- Signatures that do not contain the similarities should be challenged.
- In the scenario that the voter signs with just one mark the signature is presumed valid if the voter's record has that mark on file.

Signature Variations - Characteristics

- Slant of the signature
- Signature is printed or in cursive
- Size, proportion, or scale
- Individual characteristics, such as how the “t’s” and “x’s” are crossed, “i’s” and “j’s” are dotted, or loops are made on the letters b, d, f, g, h, j, p, q, y, or z
- Spacing between the letters within the first and/or last name and between first and last name
- Line direction
- Letter formations
- Proportion or ratio of the letters in the signature
- Initial strokes and connecting strokes
- Similar endings such as an abrupt end, a long tail, or loop back around
- Speed of the writing
- Presence or absence of pen lifts
- Misspelled names

Signature Variations - Characteristics

Proportion or ratio of the letters in the signature	
Initial strokes and connecting strokes	
Similar endings such as an abrupt end, a long tail, or loop back around	
Speed of the writing	

Signature Variations - Characteristics

Slant of the signature	 X <i>Kirby Star</i> Voter's Signature / Firma del Votante
Signature is printed or in cursive	 X Kirby Star Voter's Signature / Firma del Votante
Size, proportion, or scale	 X Kirby Star Voter's Signature / Firma del Votante
Individual Characteristics, such as how the "t's" and "x's" are crossed, the "l's" and "j's" are dotted, or loops are made on the letters b, d, f, g, h, j, p, q, y, or z	 X Kirby Star Voter's Signature / Firma del Votante

Signature Variations - Characteristics

Spacing between the letters within the first and/or last name and between first and last name	 Voter's Signature / Firma del Votante
Line direction	 Voter's Signature / Firma del Votante
Letter formations	 Voter's Signature / Firma del Votante
Presence or absence of pen lifts	 Voter's Signature / Firma del Votante
Misspelled names	 Voter's Signature / Firma del Votante

Signature Variations - Reasons

- Signature style may have changed over time
- May have been written in haste
- Signature on file may have been written with a stylus pen or other electronic signature tool
- Surface used may have been hard, soft, uneven, or unstable
- A different pen, or the pen may have malfunctioned or ran out of ink
- Age, injury, or disability may have affected a voter's ability to sign

Signature Variations - Challenges

Recap:

- Signatures that do not contain at least 2 similarities should be challenged.
- A signature identified by an initial reviewer as having multiple, significant, and obvious differences “...shall only be rejected if two (other) different elections officials unanimously find beyond a reasonable doubt that the signature differs in multiple, significant, and obvious respects from all signatures in the voter’s registration record.”

Similarity in Writing

Identifiable Similarities – Letters within Signatures

- The letter “K” and the “l” of the first name
- The letter “G” and the loops of the “N” in the last name

Similarity in Writing

Identifiable Similarities – Writing Style

- The cursive loops, and strokes of the signature
- Specifically, the letters “A” and “T”

Similarity in Writing

Identifiable (Unique) Similarities – First or Last Name

- The overall body of the signature shows similarities in both the first and last name.
- The signature contains an identifier, the star.

Similarity in Writing

Identifiable (Unique) Similarities – Letters within Signatures

- The letters “L” and “D” of the first name
- The letter “A” of the last name

Similarity in Writing

Identifiable (Unique) Similarities – No Letters

- Pictures or Symbols can be used as valid signatures
- Since we have this symbol on file, it is considered valid

	
	 Voter's Signature / Firma del Votante

Partial or Incomplete Signatures

These signatures contains only the voter's initials.

- Unique similarities in letters within the signatures can be identified.
- The “B” and “G” in the first example.
- In the second example there are no unique similarities.

Brenda M Garcia

Amy Berg

B.M.G.

A.A.B.

Partial or Incomplete Signatures

This signature contains the voter's maiden name.

- Identifiable similarities in the first but last name is different.
- Specifically, the entire first name.

Partial or Incomplete Signatures

This signature only contains a portion of the voter's name.

Identifiable similarities that can be seen:

- The “E” on both signatures is identical.
- The “W” and style of the last name is identical.

Example of Bad Signatures on File (BSF)

- This signature should be challenged as a BSF, because the Voter's Name on File does not match the name on the Signature on File.
- Double-click the Signature on File to make sure there are no other valid signatures.
- If there are no other attached signatures, challenge this as a BSF.

The screenshot shows a software window titled "View AV Sigs". At the top, it displays "10040 - 165 (Voter ID = 61875) (AV ID = 65104737)". Below this, the "Voter's Name On File" is listed as "ISABELLE RHEA THOMAS", "123 BLACKBERRY AVE", "SAN BERNARDINO CA 12345". To the right of this information are buttons for "Find Voter" and "Active Ballots". Below the name is a dropdown menu currently set to "IN REVIEW" and a checkbox labeled "Update Sig?". The main area of the window displays two signatures. The first signature, "Andrew Hall", is written in cursive and is pointed to by a red arrow labeled "Signature on File". The second signature, "Isabelle Thomas", is also in cursive, preceded by a large "X" mark, and is pointed to by a red arrow labeled "Voter's Name On File". Below the signatures, there is a checkbox for "Skip Verified Signatures?" and three buttons: "First Page", "Prev Page", and "Next Page".

Examples of Bad Signatures on File (BSF)

- The top signature box contains the signatures attached to the voter's record.
- The 1st example shows there is no signature on file to compare.
- The 2nd example shows the signature on file has been cut off.

This screenshot shows a ballot interface. At the top, there is a large, empty grey rectangular box. Below it, a signature "C. Almeida" is written in black ink on a white background. To the left of the signature is a large "X" mark. Below the signature, the text "Voter's Signature / Firma del Votante" is printed. At the bottom of the interface, there is a checkbox labeled "Skip Verified Signatures?" and three buttons: "First Page", "Prev Page", and "Next Page".

This screenshot shows a ballot interface. At the top, there is a large, empty grey rectangular box. Below it, a signature "C. Almeida" is written in black ink on a white background. To the left of the signature is a large "X" mark. Below the signature, the text "Voter's Signature / Firma del Votante" is printed. At the bottom of the interface, there is a checkbox labeled "Skip Verified Signatures?" and three buttons: "First Page", "Prev Page", and "Next Page".

Example of Bad Signatures on File (BSF)

- The signature on file is blurry and not readable.

Example of Unpaired Signature (UNPRD)

- When you come across a signature that has a completely different name to what's on DIMS.net, but it compares to a signature on a different Envelope, then you have an UNPAIRED (UNPRD).

The image displays two side-by-side screenshots of the 'View AV Sigs' web application interface. Each screenshot shows a voter's information and two signature fields. In the left screenshot, the voter is EDWIN LUIS WILSON (Voter ID = 622375, AV ID = 65731737). The top signature field contains a handwritten signature that matches the voter's name. The bottom signature field contains a handwritten signature of Andrew Hall, marked with a red 'X' and labeled 'Voter's Signature / Firma del Votante'. In the right screenshot, the voter is ANDREW HALL (Voter ID = 622375, AV ID = 65731737). The top signature field contains a handwritten signature that matches the voter's name. The bottom signature field contains a handwritten signature of Edwin Elias Wilson, marked with a red 'X' and labeled 'Voter's Signature / Firma del Votante'. A large red 'X' is drawn across the bottom signature fields of both screenshots, indicating that the signatures are unpaired. The interface includes buttons for 'Find Voter', 'Active Ballots', 'Update Sig?', 'Skip Verified Signatures?', 'First Page', 'Prev Page', and 'Next Page'.

Examples of Signature Variations

Would you accept these envelopes based on these signatures?

The image displays two side-by-side screenshots of a web application titled "View AV Sigs". Each screenshot shows a voter's information and their signature verification status.

Left Screenshot (Jaydee Davis):

- Header: 10040 - 165 (Voter ID = 61875) (AV ID = 65104737)
- Name: JAYDEE DAVIS
- Address: 123 COUNTY LN, SAN BERNARDINO CA 12345
- Status: IN REVIEW (dropdown menu)
- Buttons: Find Voter, Update Sig?, Active Ballots
- Signature: A handwritten signature "Jaydee Davis" is shown above a line.
- Verified Signature: A handwritten signature "Jaydee Davis" is shown above a line, preceded by a large "X". Below the line is the text "Voter's Signature / Firma del Votante".
- Footer: Skip Verified Signatures? (checkbox), First Page, Prev Page, Next Page

Right Screenshot (Isabelle Rhea Thomas):

- Header: 10201 - 34 (Voter ID = 625435) (AV ID = 56016481)
- Name: ISABELLE RHEA THOMAS
- Address: 487 CIRCLE DR, SAN BERNARDINO CA 12345
- Status: IN REVIEW (dropdown menu)
- Buttons: Find Voter, Update Sig?, Active Ballots
- Signature: A handwritten signature "Isabelle T." is shown above a line.
- Verified Signature: A handwritten signature "Isabelle Rhea Thomas" is shown above a line, preceded by a large "X". Below the line is the text "Voter's Signature / Firma del Votante".
- Footer: Skip Verified Signatures? (checkbox), First Page, Prev Page, Next Page

Examples of Signature Variations

Identifying Mark

- When a voter is unable to sign their envelope, the voter can make a mark of an “X”, however, this mark must also be on file in DIMS.net.

Examples of Signature Variations

Non-Roman languages

- Some voters may have as their primary language an entirely different set of characters in their alphabet.
- Example: Chinese, Tamil, Arabic, Mediterranean, Greek, Cyrillic alphabets.

Other Marks or Images

- Cattle brand
- Three cat faces
- Artistic liberty, such as a heart or emoji

Questions about the Signature Verification Process?

YOUR TURN!!

REMEMBER:

Declaration of Voter / Declaración del Votante

I declare under the Penalty of Perjury under the laws of the State of California that I am the person whose name appears on this envelope, that I am a resident of the precinct in which I am voting, reside at the address shown, and have neither applied for nor intend to apply for a mail ballot from any other jurisdiction for this election.

Declaro bajo Pena de Perjuicio conforme a las leyes del Estado de California que soy la persona cuyo nombre aparece en este sobre, que soy residente del distrito electoral en el que votaré, que resido en la dirección que se muestra, y que no he solicitado ni intentado solicitar una boleta por correo de ninguna otra jurisdicción para estas elecciones.

Warning:

- Your ballot will not be counted unless you sign in your own handwriting. Your signature must compare to your signature on file at the Registrar of Voters office.
- Voting twice constitutes a crime.

Advertencia:

- No se contará su boleta a menos que la firme con su propia letra. Su firma debe ser equiparable a su firma registrada en la oficina del Registro de Votantes.
- Votar dos veces constituye un delito.

4150 N E ST SAN BERNARDINO, 92407

Authorized Return Agent

A voter who is unable to return the ballot may designate any person to return the ballot to any polling place or drop-off location in California.

Agente de Devolución Autorizado

Un votante que no sea capaz de devolver la boleta puede designar a cualquier persona para que devuelva la boleta a cualquier casilla electoral o punto de entrega en California.

Print name of the authorized person Nombre en letra de imprenta de la persona autorizada	Relationship to the voter Relación con el votante	Signature of the authorized person Firma de la persona autorizada

Ballots that are mailed MUST be postmarked on or before Election Day and received by the Registrar of Voters office no later than 7 days after Election Day.

Las boletas que se envían por correo DEBEN tener matasellos del Día de la Elección o de antes y se deben recibir en la oficina del Registro de Votantes a más tardar 7 días después del Día de la Elección.

QUIZ: SIGNATURE SCENARIOS

Would you accept this envelope based on the signature on file?

The screenshot shows a software window titled "View AV Sigs". At the top, it displays the address "10301 - 21 (Voter ID = 323198) (AV ID = 57128992)" and the name "ADELA SAMUEL" with her address "321 HOME ST, SAN BERNARDINO CA 92407". There are buttons for "Find Voter" and "Active Ballots". Below the address is a dropdown menu set to "IN REVIEW" and a checkbox for "Update Sig?". The main area contains two signature boxes. The top box shows a handwritten signature "Adela Turner". The bottom box shows a handwritten signature "Adela Samuel" with a red "X" to its left. Below the bottom signature is the text "Voter's Signature / Firma del Votante". At the bottom of the window, there is a checkbox for "Skip Verified Signatures?" and three buttons: "First Page", "Prev Page", and "Next Page".

Thank You!!!

Thank you for participating in today's training and joining
our team for the
November 5, 2024, General Election
