

Argument in Favor of Measure H
Mountain View School District
Word Count [300]

Vote Yes on H to update our neighborhood elementary and junior high schools and ensure all students have equal access to the tools they need to succeed!

Many of our schools were constructed over 50 years ago, have never been updated and do not meet modern building or safety codes. Some contain hazardous materials including asbestos and lead pipes, while others need to be updated to ensure proper access for individuals with disabilities.

Our schools have over 80 portable classrooms, averaging 36 years old, which have structural damage and water leaks, making ongoing repairs costly. We need to replace these temporary buildings with safe, modern classrooms.

Student safety and security is a top priority for schools around the nation. Voting Yes on H provides funding for increased safety and security measures that protect our students and staff in case of an emergency.

Vote YES on H: Safe, Modern Schools

- Improve fire safety and security systems, including fencing, cameras, emergency communications systems, classroom emergency locks, smoke detectors
- Upgrade older schools to modern health and building codes, and ensure access for students with disabilities
- Fix deteriorating roofs and old plumbing, sewer, heating, ventilation, and electrical systems
- Upgrade classrooms and labs to support high quality instruction in math, science, engineering, and technology

Measure H Requires Transparent Fiscal Accountability:

- All money raised must stay in our local schools – no funds can be taken by the State
- An independent citizens' oversight committee, annual audits, and public spending disclosure ensure funds are spent as promised

Your YES vote on H provides updated classrooms, labs, and technology to meet rising academic standards and ensure our schools serve our community for decades to come.

Join community members, teachers, and parents – Vote Yes on H to maintain high-quality neighborhood schools and support our students!
