

Argument in Favor – City of Adelanto

Vote Yes on Measure __ for a Safer, Cleaner, Stronger Adelanto.

In Adelanto, we are committed to protecting our quality of life by keeping streets, parks, and public facilities safe, clean, and well-maintained. Measure __ is how we get there.

Fast emergency response times for 911 calls save lives. Yet right now, Adelanto has just one fire station covering 55 square miles and fewer than half the law enforcement officers needed to keep a community our size safe. When an emergency strikes, that is not just inconvenient – it's dangerous. Measure __ ensures firefighters, paramedics, and law enforcement officers can respond quickly and reliably when we need them most.

Adelanto also has more than \$100 million in unfunded street and infrastructure projects. With over 250 miles of streets and 130 miles of sidewalks to maintain, the longer we wait, the more expensive repairs become. Measure __ lets us fix potholes, repair aging infrastructure, and stop kicking the can down the road.

Simply put, we need Measure __ to protect public safety services and maintain the quality of life our residents deserve.

Vote Yes on __:

- Fix potholes and pave City streets
- Keep streets, parks, and public facilities safe, clean, and well maintained
- Provide responses to 911 emergencies, fire protection, and paramedic services
- Clean up piles of trash, litter, and illegal dumping along streets, vacant lots, and in public areas

A Clear System of Transparency and Accountability:

All funds must support Adelanto services only. The state or county can't touch a penny of Measure __. Independent audits and full public disclosure ensure accountability.

Essential purchases like groceries, prescription medications, and diapers are exempt.

Neighbors, Community Leaders, Local Public Safety Officers, and Small Business Owners All Agree – Vote Yes on __!
