Providing Assistance to Voters

All voters must be treated with the utmost level of respect and be provided with the same level of service, including the use of appropriate language when speaking to a voter with a disability. Be considerate and patient, anticipate voters' needs, and offer assistance when possible.

- Communication Tools: Wait. Recognize. Listen.
 - Wait. Suppress the instinct to quickly respond or cut off a question. Wait first to process the question, then formulate a reasoned and respectful response.
 - Recognize. Focus on how to recognize other people's feelings, anticipate their needs, be sensitive, accommodating, and courteous in assisting them.
 - Listen. Listen before speaking to understand exactly what the voter is feeling, seeing, needing, and trying to communicate. It is most important to remember to put assumptions aside so poll workers are better able to hear and understand a voter's responses.
- Voters who, for any reason, need or want assistance to vote have the right to receive help to mark a ballot.
- A voter can bring up to two (2) people into the voting booth, or the voter may request assistance from a poll worker.

Election Day Safety and Emergency Procedures

Safety Procedures

Keeping people safe and maintaining the integrity of the Election is essential to the Registrar of Voters office. Supervisors must take time in the morning to contact polling place building representatives and find emergency exits and shelter areas. Relay this information to each poll worker. Please stress that safety is everyone's responsibility.

If an emergency does arise, never do anything that will put your life, or the lives of others at risk. Call 911. However, if you have time to exit the building safely with specified election material listed below, please do so. You can set up a makeshift voting area outside of the building until you can re-enter the building, or until the Registrar of Voters office provides you alternate polling location information.

The Registrar of Voters office has set up a Supervisor Hotline that you should call if there is an emergency at your polling place. When you are safe from danger, please call that number and the Registrar of Voters office will give you instructions on what to do next.

The items that should be evacuated if it is safe to do so are:

1. Ballot boxes containing voted ballots
2. Poll Pad(s)
3. Un-voted Ballots
4. Supervisor's Notebook

Go to a location away from the building and away from danger. Call the Supervisor Hotline and let the Registrar of Voters office know what is happening and you will receive further instructions. If you contact 911, let them know that you are calling from a polling place.

Emergency Procedures

➤ Fire

- Immediately notify a member of the facility's staff.
- Utilize the nearest fire extinguisher if you observe a small, contained fire.
- If a facility staff member is not nearby, make a determination whether the building must be evacuated and call 911.
- If evacuation is ordered, poll workers should:
 1. Exit the building and gather at the pre-determined gathering point selected by the Supervisor (evacuate voting supplies if it is safe to do so).
 2. Escort any members of the public out and away from the building.
 3. Account for everyone at the gathering point.
 4. Call the Supervisor Hotline.

➤ Power Outage

- Immediately notify a member of the facility's staff.
- If there is sufficient natural or emergency lighting, continue voting process.
- If there is insufficient light and there is another location at the site with sufficient lighting, move the voting area. Be sure to move the directional signs.
- If the power remains off for more than five (5) minutes, call the Supervisor Hotline for further instructions.

 - Run: Get to a safe place as quickly as possible.
 - Hide: Find a secure location, lock all doors, lay low, silence your cell phone and any electronic devices, and keep silent until help arrives.
 - Fight: If you are unable to run and hide, protect yourself.
- Flood
 - Immediately notify a member of the facility's staff.
 - Find safe shelter right away.
 - Do not walk, swim or drive through flood waters.
 - Remember, just six inches of moving water can knock you down, and one foot of moving water can sweep your vehicle away.
 - Stay off bridges over fast-moving water.
 - Depending on the type of flooding:
 - Evacuate if told to do so.
 - Move to higher ground or a higher floor.
